CS253: Software Development

Welcome to Lecture 9!

Daniel George
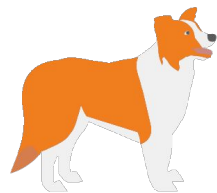

September 26, 2023

Announcements

- Today/this week: continue into networking, and make our own first server in Python and Flask
- Assignment2 is live!   Due in a little less than 2 weeks
- Thank you very much for your replies to surveys!
- Going to try something new today based on class feedback (repl.it), so thank you (in advance) for your patience with me
- I'll hold office hours, most-likely Friday afternoons
- I will be on-campus for a week! Oct 3 - Oct 5, so those class days will still be remote, but I'll also be in CNS (I would love to see you!)

Practice

What are your questions?

Thank you!
